Rooted
& Rising

Quote Of The Issue

What you leave
behind is not what
is engraved in
stone monuments,
but what is woven
into the lives of
others.

— Pericles

Editor's Note

Welcome to this edition of Infinity a reflection of how far we've come and how intentionally we continue to grow.

This quarter, **DigiMantra** has moved with both strength and soul. We've deepened our academic ties across the region, fostered innovation through spirited hackathons, and laid the groundwork for tomorrow through upskilling and **MoUs**. Our anniversary milestone reminded us not just of longevity, but of legacy a team that thrives because of the roots we've nurtured together.

From CSR to celebration, from classroom connections to community commitments, this quarter has been shaped by people and purpose. Across every placement drive, every campus visit, and every session hosted, there's a quiet power in how we've shown up - not just as a tech company, but as collaborators, enablers, and changemakers.

Here's to being rooted in values and rising with vision.

Happy reading!

Campus Placement Drive at LPU

Fueling Innovation & Entrepreneurship

On 18th march 2025, DigiMantra visited Lovely Professional University for an exciting campus placement drive, connecting with the next wave of tech talent. The energy was palpable, with students eager to showcase their skills and ambitions.

From engaging conversations to discovering the potential of future innovators, the event was a glimpse into the bright minds that will shape tomorrow's tech landscape. Special thanks to **Mr.Mahendra Saggu, Professor Prince Kumar, and the LPU team** for their seamless coordination and warm welcome.

The future of technology is truly in great hands, and we're thrilled to have played a part in helping these talented individuals take their first step into the industry.

DigiMantra at Chitkara Design School

Campus to Opportunity

On 22nd March 2025, Mr. Bikramjit Singh (Global VP, DigiMantra) & Neha Malik (Associate Brand & Marketing Strategist) visited Chitkara Design School for a campus drive filled with creativity, curiosity, and promising talent. From portfolio walkthroughs to conversations about design in tech & marketing, the day celebrated innovation in its most expressive form.

It was inspiring to see young creatives bring fresh perspectives and bold ideas to the table. A big shoutout to the **Chitkara team** for their hospitality and seamless coordination. As we continue to connect with emerging talent, moments like these remind us that the future of design is bright and it's already in motion.

On April 7, DigiMantra marked **World Health Day** with more than a gesture it was a reaffirmation of our people first promise. In partnership with **Livasa Hospital**, a comprehensive medical camp was hosted at both our **Mohali and Ludhiana** offices.

Digitians participated in vital screenings, consultations, and preventive health check ups that encouraged a proactive outlook on wellbeing. From blood pressure monitoring to dietary guidance, the camp offered a meaningful pause one focused on balance, awareness, and everyday wellness.

At DigiMantra, health is not a checkbox. It's a culture we nurture one that grows stronger through consistent care, thoughtful initiatives, and collective responsibility.

Homecoming 2025

A Full-Circle Moment at LPU

On April 8, DigiMantra's CEO Mr. Sachin Khosla returned to his alma mater, **Lovely Professional University**, for **Homecoming 2025**- a moment filled with gratitude, reflection, and recognition.

Honored by the **LPU Alumni Association**, Mr. Khosla was celebrated for his visionary leadership and the remarkable journey from campus corridors to building meaningful

impact in the tech world. The visit stirred deep nostalgia, as memories met milestones in a setting that shaped his early path.

This homecoming wasn't just about looking back- it was about staying connected to the roots that fuel our rise. A tribute to where it all began, and a reminder of how far purpose and perseverance can take us.

DigiMantra at PCTE

Bridging Academia & Industry

On April 9, DigiMantra marked a significant milestone by signing a strategic MoU with PCTE Group of Institutes, Ludhiana a partnership designed to close the gap between academic learning and industry needs.

Through DMLearning, DigiMantra's educational initiative, this collaboration will bring in-depth training across UI/UX, Cloud Computing, Machine Learning, and more- alongside Faculty Development Programs to build a future-ready ecosystem for both students and educators.

The MoU was formally signed by Mr. Bikramjit Singh, Global VP at DigiMantra, and Dr. Kapil Prashar, Dean of Engineering at PCTE. This partnership reflects more than a handshake it's a shared commitment to upskilling, innovation, and shaping pathways that lead to real-world impact.

DigiMantra at CT University

Fueling Innovation at Code Crafters 2.0

On April 11, DigiMantra proudly sponsored Code Crafters Hackathon 2.0 at CT University, Ludhiana a high-energy, 24-hour coding sprint

that brought together 300+ young innovators under one roof.

More than a contest, the hackathon was a celebration of ideas in motion a platform where budding developers turned imagination into innovation. As part of our continued collaboration with CT University, the event highlighted the powerful intersection of industry mentorship and academic drive.

With Mr. Harsimran Singh as Guest of Honor, and Ms. Manpreet Kaur and Mr. Dhruv Pal representing DigiMantra, the day was rich with insight, collaboration, and community spirit. Participants walked away with more than just goodies and certifications. They carried the confidence of having built something real.

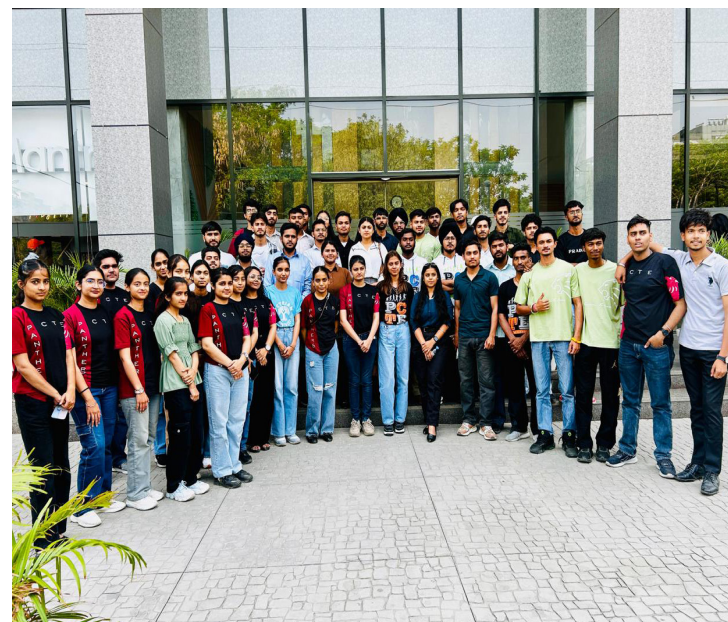

On **April 15**, our Mohali office buzzed with curiosity and conversation as we welcomed second year **B.Tech students from PCTE, Ludhiana**, for an immersive industry visit under the **DMLearning** banner.

From seeing how classroom concepts evolve into real world solutions to interacting with our experts, the day was all about bridging the gap between academics and the digital workspace.

The sessions, led by **Mr. Rohit Puri (Key Account Manager)** and **Mr. Anurag Thakur (Technical Project Manager)**, offered students firsthand insights into the tech lifecycle, career journeys, and the value of continuous learning.

We're proud to create spaces where learning goes beyond lectures- where future innovators can see, ask, and imagine what's next.

Being rooted in responsibility is how we rise with intention.

Celebrating With Purpose

13 Years of DigiMantra, Marked with Meaning

On **April 14**, as **DigiMantra** celebrated its **13th anniversary**, we chose to honor the day not just with reflection, but with action. In collaboration with **Jyoti Sarup Kanya Asra Society**, our team spent a deeply meaningful afternoon with **140 young girls**, reaffirming our belief that growth holds more value when it uplifts others too.

From shared smiles to handmade paper planes carrying handwritten dreams, the day was filled with small gestures that spoke volumes. Each crafted wish symbolized a flight

toward possibility a quiet celebration of courage, hope, and new beginnings.

This moment wasn't just an activity it was a reminder that the heart of our legacy lies in the lives we touch, and the futures we help shape.

Rooted in Culture, Rising Together

Looking back, we realize it's not just milestones that define us, but the countless little moments along the way. From brainstorming side by side to celebrating small wins, every snapshot here reflects the culture that holds us together. Each frame tells a story of laughter, learning, and growth woven into something greater than the sum of its parts.

DigiMantra at PCTE

Generative AI, Demystified

On April 17, students at PCTE Group of Institutions got a front-row seat to the future as Mr. Karandeep Singh Sandhu (Software Developer, DigiMantra) delivered a compelling guest lecture on “Generative AI: Beyond ChatGPT.”

As part of our **DMLearning** initiative, the session unpacked the real potential of generative AI from how it works, to where it's headed, and why it matters.

But it wasn't just about the tech it was about sparking curiosity, critical thinking, and responsible innovation among future engineers.

Because at DigiMantra, we don't just build tech- we build understanding.

Green At Heart

Celebrating Earth Day with Creativity & Care

On April 22, DigiMantra celebrated World Earth Day with a focus on sustainable action and imaginative expression. From tree planting to reimagining discarded materials, Digitians came together to make a difference one thoughtful act at a time.

The highlight of the celebration was the ‘Best Out of Waste’ challenge, where teams transformed everyday waste into meaningful, artful creations proving that innovation can grow from even the simplest of scraps. These moments weren't just fun and fulfilling they served as a reminder that change begins with awareness and thrives through action.

DigiMantra at Maharaja Agrasen University

Bridging Industry & Academia

DigiMantra took another step forward in shaping future ready talent by signing a strategic MoU with Maharaja Agrasen University a partnership built on a shared vision to bridge the gap between academic insight and industry innovation.

This collaboration will pave the way for hands on programs, tech-driven learning, and real world exposure for students, while also opening doors for cocreated value in curriculum and mentorship.

Rooted in academic trust and rising with purpose, this alliance reinforces our commitment to building strong, future-focused ecosystems one meaningful partnership at a time.

Empowering Through Awareness

A Thoughtful Dialogue on Workplace Safety

On April 30, DigiMantra hosted an insightful POSH (Prevention of Sexual Harassment) awareness session, reinforcing our commitment to fostering a workplace rooted in respect, safety, and inclusion.

Led by *Ms. Yogita Sharma*, a certified POSH trainer and seasoned HR professional, the session unpacked the essentials from legal frameworks and reporting protocols to role based responsibilities and real-world case studies.

With her deep industry experience and practical approach, *Ms. Sharma* turned a complex topic into an engaging, interactive learning experience. Through meaningful discussion, role play, and open Q&A, the session encouraged Digitians to reflect, ask, and act because creating safer spaces starts with collective understanding and everyday accountability.

DigiMantra at Chitkara University

Hackfest'25

On May 7, DigiMantra joined hands with Chitkara University for a regional hackathon that brought together brilliant young minds eager to shape the future through code, creativity, and conscience.

Student teams explored challenges rooted in real-world relevance from sustainable business solutions to ethical AI practices showcasing not just technical know-how, but thoughtful problem-solving.

Representing DigiMantra on the jury panel were Mr. Bikramjit Singh (Global VP) and Mr. Akshay Kumar Prabhakar (Technical Lead), who evaluated the projects with an eye for innovation, impact, and practicality.

Events like these remind us that the next wave of tech leaders is already here building with purpose, right from the classroom.

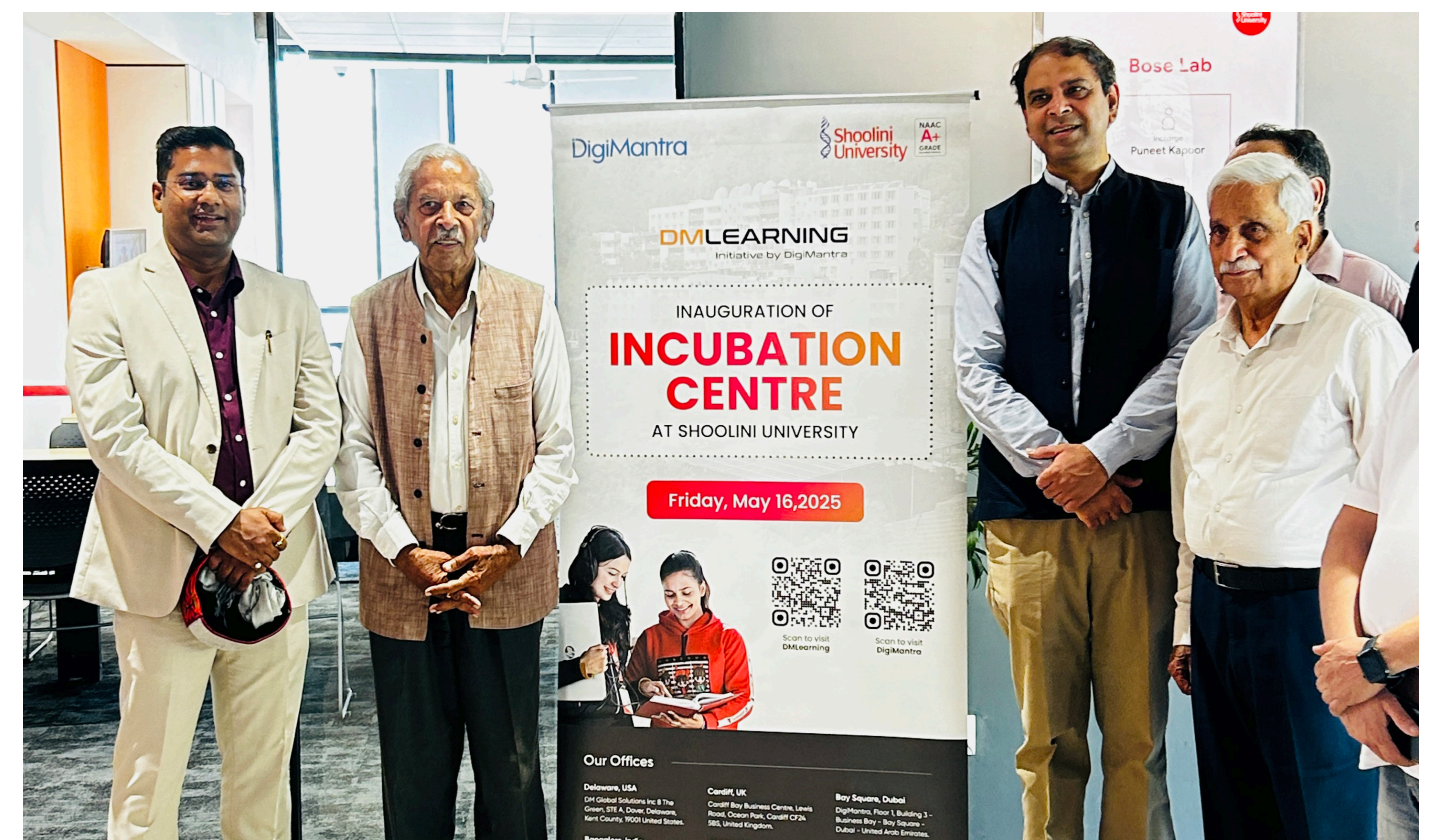

DigiMantra at Shoolini University

First Incubation Centre Inauguration

On May 16, DigiMantra took a bold step toward nurturing innovation by inaugurating a dedicated Incubation Centre at Shoolini University, Solan, under the banner of DM Learning, our educational initiative.

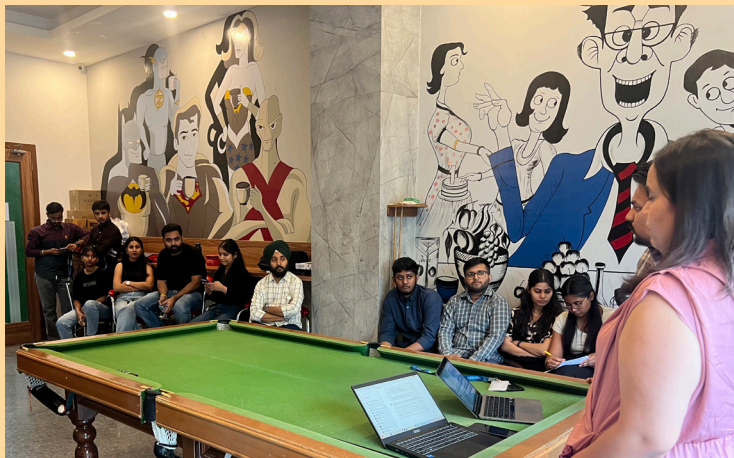

More than just infrastructure, this centre represents a space where ambition meets access built to empower aspiring entrepreneurs, student creators, and next-gen problem solvers. It's where early ideas will be shaped into scalable solutions, with guidance from both academia and industry.

We extend our sincere thanks to the leadership at Shoolini University for their collaboration and shared vision. Together, we're cultivating a culture where knowledge turns into action and young minds are equipped to rise with purpose.

Skills That Speak

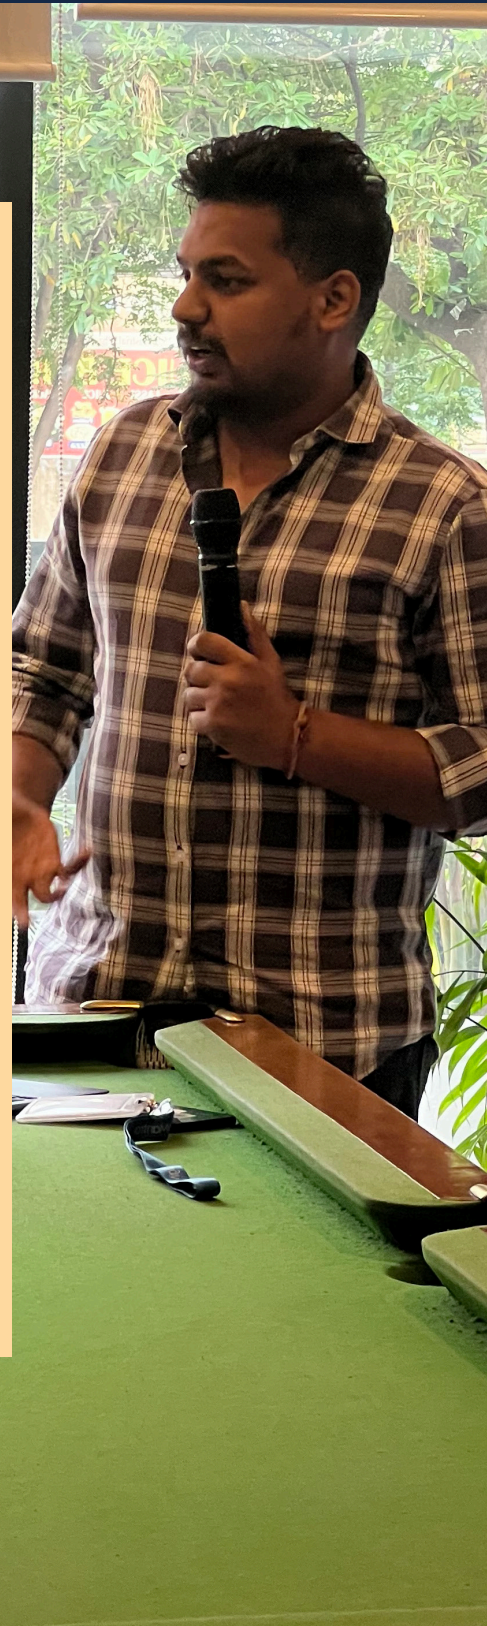

Power Hour on Presence, Pitch & Professionalism

On **May 16**, DigiMantra hosted an energetic edition of the Upskilling Power Hour, designed to sharpen more than just technical know-how. The session, led by **Gaurish Bansal and Kajal Verma** (Business Development Managers), offered an immersive dive into the soft skills that often define career success.

From crafting standout resumes to mastering the art of first impressions, participants explored what it really takes to show up with impact in interviews, client calls, or freelance platforms like Upwork. With candid insights, interactive moments, and zero fluff, the session focused on clarity, confidence, and communication as core tools for long-term growth.

Because sometimes, the real game-changer isn't just what you know it's how well you express it.

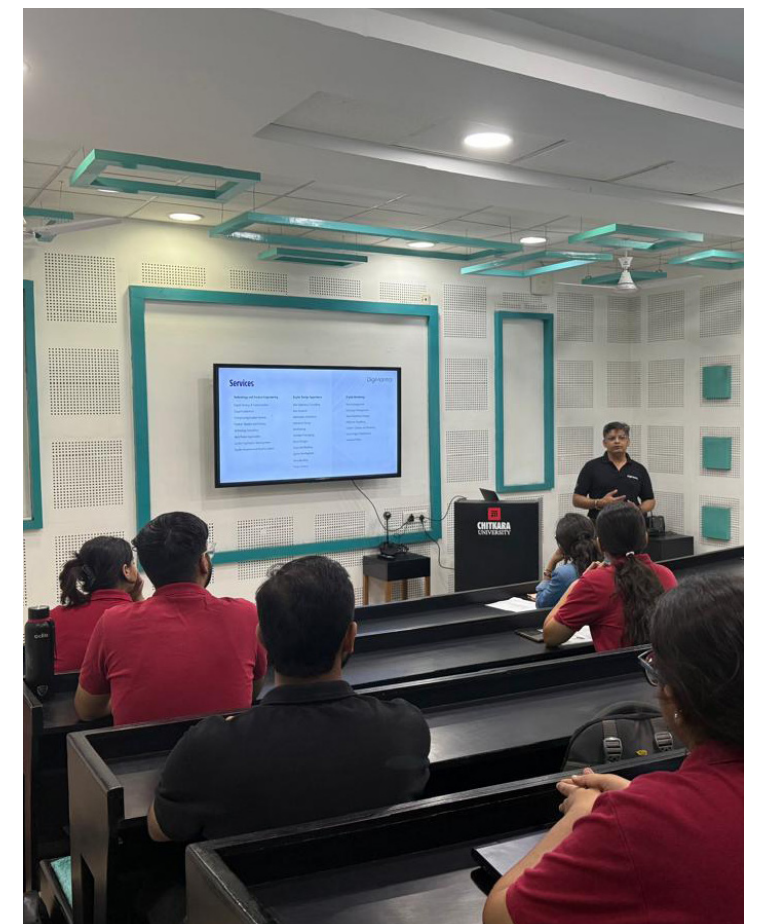

DigiMantra at Chitkara University

Talent Meets Opportunity

On a vibrant afternoon at **Chitkara University**, **Team DigiMantra** arrived not just as recruiters, but as collaborators ready to meet the next generation of thinkers, doers, and dreamers.

Led by **Mr. Bikramjit Singh**, (Global VP, DigiMantra), the placement drive was more than a hiring initiative it was a space for meaningful conversation, curiosity, and shared ambition. Students came prepared, eager, and open to exploring what it means to grow with purpose in today's digital world.

Moments like these reaffirm our belief that every great team begins with a great conversation- one rooted in mutual respect, potential, and vision.

Greener Together

Simple Acts, Sustainable Impact

On June 5, DigiMantra marked World Environment Day with actions that reflected our ongoing commitment to mindful growth. While the Mohali team participated in a tree plantation drive, our Ludhiana office tapped into creativity by turning everyday waste into purposeful, upcycled items.

Though the gestures were humble, the message was clear sustainability starts with awareness, and every small step matters. Whether it's planting a sapling or rethinking what we throw away, these acts shape the kind of workplace and world we want to build.

Being rooted in responsibility is how we rise with intention.

DigiMantra at MMDU

Bridging Academia & Industry

As part of our growing educational outreach, DMLearning by DigiMantra signed a strategic MoU with Maharishi Markandeshwar (Deemed to be) University, Mullana (MMDU) marking another purposeful step in bringing industry aligned learning to campuses.

This collaboration aims to equip students with real-world tech skills, bridge academic gaps, and prepare them to meet the evolving demands of the digital workforce. From practical training to exposure driven programs, the partnership will nurture talent that's not just qualified, but truly future ready.

At DigiMantra, we believe that when education and industry move in sync, real transformation begins one learner at a time.

Shaping What's Next

DigiMantra at the 5th HR Conclave by PHDCCI

On June 29, Team DigiMantra participated in the 5th HR Conclave hosted by the PHD Chamber of Commerce & Industry a gathering of changemakers from across industries, united by a shared mission: redefining the role of HR in a rapidly shifting world.

Represented by Ms. Varinder Kaur (HR Manager, DigiMantra) and Ms. Lovenish Godia (HR Associate, DigiMantra), alongside industry leaders and business heads, the event explored bold ideas around building a future-ready workforce, integrating HR tech, and advancing diversity, equity, and inclusion. The conversations weren't just insightful they were actionable, challenging conventional norms of leadership, wellbeing, and adaptability

A standout moment came from Dr. G.P. Rao, whose sharp perspective on today's business climate underscored HR's evolving identity- from policy enforcer to experience architect.

For DigiMantra, the conclave was more than a learning opportunity. It was a reaffirmation of our ongoing journey to build workplaces that are inclusive, resilient, and deeply human.

Hosting DigiExplorers

Real conversations. Real skills. Real confidence.

For four immersive days, our Mohali office transformed into a launchpad of ideas, questions, and possibilities as we welcomed a group of bright, young students now known as our DigiExplorers.

This wasn't your typical internship.

From branding and design to AI and innovation, these students got a firsthand look at how tech and creativity collide in the real world. They didn't just observe they participated, asked the right questions, and even envisioned their own paths.

What stood out most?

Their curiosity. Their courage to try. And the confidence they walked away with.

At DigiMantra, we don't just believe in building products we believe in nurturing potential. And this experience reaffirmed that the future belongs to those willing to explore it.

Breathe In. Reach Out. Realign Together.

Celebrating balance, mindfulness, and collective well being the DigiMantra way.

This **International Yoga Day**, our teams across Mohali and Ludhiana came together for something simple yet powerful a shared pause.

Through stretches, silences, and steady breaths, we realigned not just our posture, but our perspective. It was a reminder that wellness isn't a solo act- it's a rhythm we create together.

At **DigiMantra**, we believe that taking care of ourselves is the first step in taking care of the work, the people, and the purpose we stand for.

One flow. One team. One intention to grow stronger, inside and out.

Most Inspiring Digitians

Quarter 1

Alisha Girdhar

Alisha, your creativity and eye for detail as a UI/UX Designer have brought ideas to life with clarity and elegance. Your ability to blend functionality with aesthetics has elevated user experiences and strengthened the way our projects connect with people. Beyond design, your collaborative nature and problem solving mindset inspire those around you to think bigger and better. Thank you for setting such a high bar in design innovation and teamwork.

Rishabh Vishwakarma

Rishabh, as a React JS Developer, you've consistently demonstrated precision, creativity, and a strong problem-solving mindset. From building seamless interfaces to ensuring robust functionality, your work reflects both technical excellence and attention to detail. What makes you truly inspiring is your willingness to collaborate, share knowledge, and approach every challenge with calm determination. You embody the spirit of growth and teamwork that defines DigiMantra, and your **contributions continue to raise the bar for us all.**

Most Inspiring Digitians

Quarter 2

Muskan Dhiman

Muskan, as an Associate React JS Developer, you've impressed us all with your curiosity, adaptability, and drive to grow. Your enthusiasm to take on challenges and your ability to quickly turn ideas into impactful results have made you a vital part of the team. Beyond your technical skills, your positive energy and willingness to collaborate have added great value to our workplace culture. Thank you for showing what passion and perseverance can achieve.

Satvinder Singh

Satvinder, your commitment and expertise as a Senior Front-End Developer have been truly commendable. With your deep technical knowledge and innovative thinking, you've consistently delivered solutions that elevate both the performance and quality of our projects. Your leadership in guiding peers, coupled with your attention to detail, has set a strong example for the team. Thank you for being a driving force of excellence and for inspiring everyone around you with your consistency and dedication.

Once Upon a...

The Origins of Digital Transformation: From Typewriters to Touchscreens

Picture this: It's the **1940s**. An office is buzzing not with pings and notifications but with the rhythmic clatter of typewriter keys. Letters are carbon-copied, phones have cords, and filing cabinets guard every piece of information. Efficiency means paper neatly stacked, not data in the cloud.

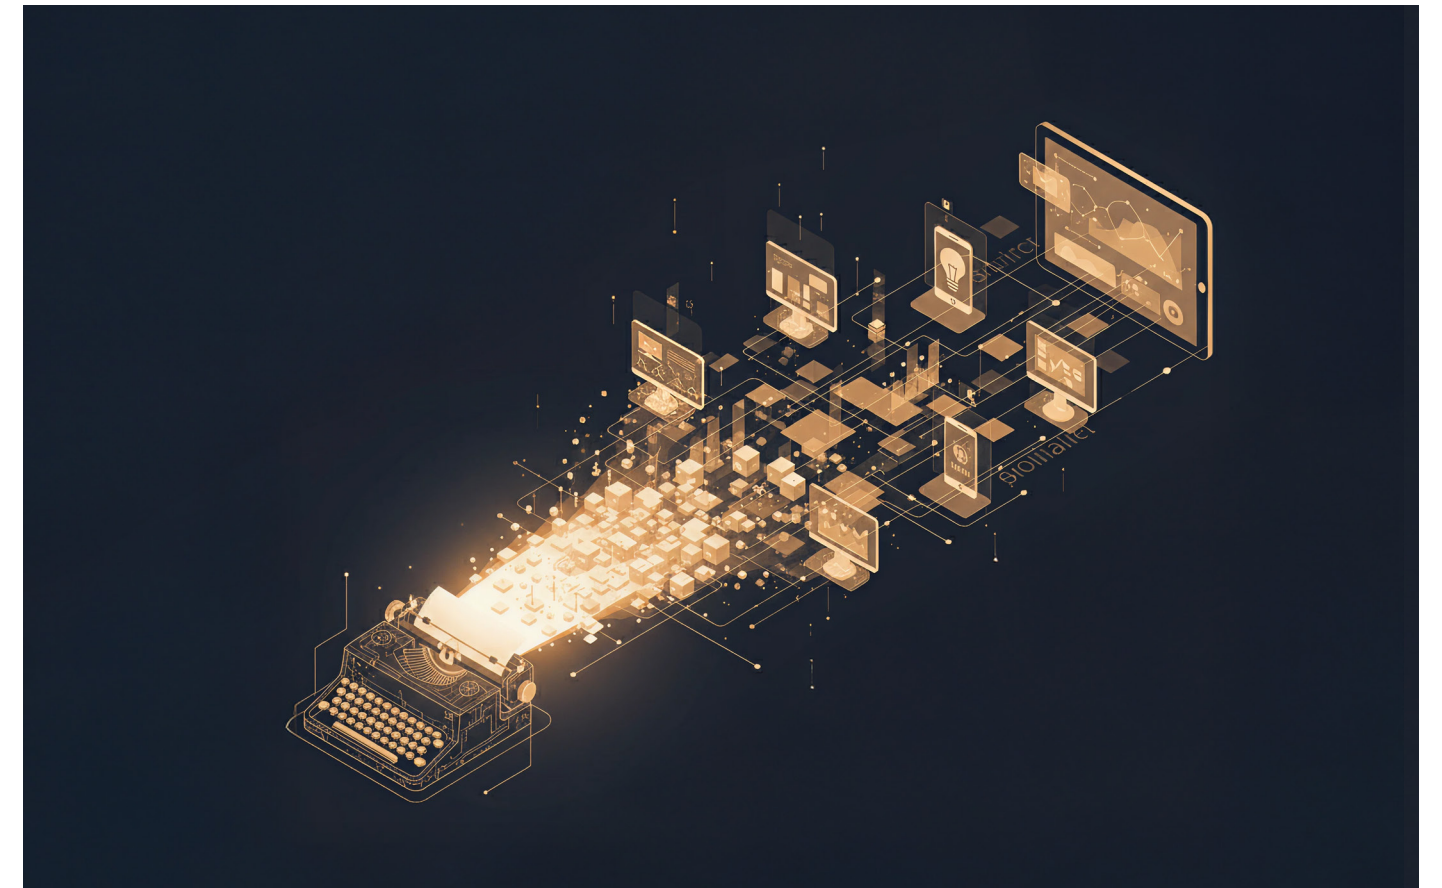

Then, a whisper of change. In the **1960s**, giant computers machines that filled entire rooms start to appear. They're mysterious, complex, and reserved for a few brilliant minds. For most people, the idea of going "digital" still feels like science fiction.

But by the **1980s**, the revolution makes its way to the desk. The personal computer arrives, transforming work from ink and ledgers to screens and software. Suddenly, offices begin to hum with a different kind of energy spreadsheets replacing paper trails, and emails making their first cautious entry.

The **1990s** speed things up. The internet bursts onto the scene, shrinking distances and rewriting how businesses connect. The millennium adds fuel: mobile phones evolve into smartphones, social media ties the world together, and cloud storage changes the scale of what's possible.

And here we are in **2025** rooted in that long history, yet rising into a future powered by AI, real-time insights, and possibilities we're only beginning to imagine. The story of digital transformation is not just about machines. It's about people their adaptability, their creativity, their hunger to do better.

At DigiMantra, we see ourselves as part of this living story bridging the past and the future, building on what came before, and pushing toward what comes next. Because the digital revolution isn't finished. It's still being written, one innovation, one idea, one leap at a time.

Current Hires

Mohali

Team Lead – Python

Experience: 5+ years
Architect backend systems, guide developers, and deliver clean, scalable code.

Business Development Manager – Upwork

Experience: 5+ years
Drive global growth through Upwork, manage client accounts, and build lasting partnerships.

Shopify + Magento Developer

Experience: 3–5 years
Design and customize e-commerce solutions, ensuring seamless performance and user experience.
