Quote of the Issue

Do the **best** you can until you **know better**. Then when you know better, **do better**.

- Maya Angelou

Editor's Note

Thirteen years ago, DigiMantra began as an idea, powered by ambition, shaped by resilience, and driven by people who believed in building something meaningful.

In 2025, we didn't just grow; we evolved. This year was a reminder that progress is not always about speed; it's about direction. From academic collaborations to industry milestones, from classrooms to boardroom conversations, every step strengthened the circle we continue to expand.

We welcomed new talent, celebrated long standing dedication, signed transformative partnerships like our MoU with IIT Ropar, and marked 13 years of culture that prioritises innovation with integrity.

What makes this year special isn't just the milestones; it's the mindset. A mindset that values learning over limits, collaboration over competition, and continuity over complacency.

As you turn these pages, you'll find more than events and achievements. You'll find stories of people, courage, creativity, and collective growth.

Because DigiMantra is not just moving forward. We are moving forward, full circle.

January

New Beginnings
Renewed Energy

January opened the year with clarity and momentum. Teams returned with fresh ideas, stronger focus, and a shared commitment to growth. Conversations turned into plans, and plans into action. It was a month of reconnecting, with our goals, our culture, and each other. As we stepped into 2025, the direction was clear: move forward with intention, build with purpose, and grow together.

The circle begins again, stronger than before.

February

Partnerships
Perspectives
Progress

February was a month of purposeful progress; strengthening academic collaborations, hosting impactful technical sessions, and advancing DMLearning initiatives. Through industry engagements, global interactions, and internal leadership development, we stayed focused on innovation, growth, and continuous improvement.

A month that proved progress accelerates when collaboration leads the way.

March

Campus Connect Career Conversations

March focused on strengthening the bridge between academia and industry. From student visits and DMLearning introductions to campus engagements and placement drives, the month was filled with meaningful interactions.

Connecting with emerging talent and sharing real-world insights reaffirmed one belief when learning meets opportunity, growth follows.

April

Purpose in Action

April was a month of steady progress; from strengthening campus partnerships and signing key MoUs to engaging with students through impactful sessions.

We celebrated 13 years of DigiMantra with gratitude, continued our commitment to community initiatives, and marked a proud CEO homecoming at LPU, Lovely Professional University, reflecting how strong roots shape impactful journeys.

A month that reflected growth driven by purpose.

May

May focused on Innovation, Incubation, and Impact.

From the inauguration of the DM Learning Incubation Centre at Shoolini University to engage with young innovators during HackFest'25 and hosting the UpSkilling Power Hour session, the month was driven by growth and collaboration.

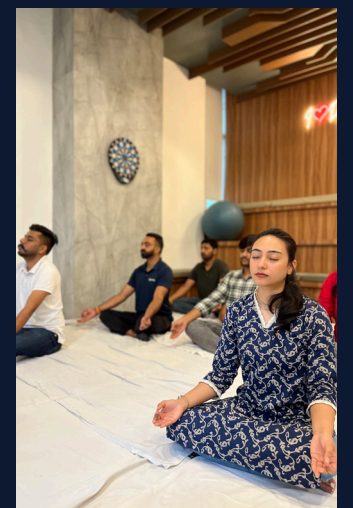

Each initiative reflected our commitment to empowering talent, strengthening academic partnerships, and turning ideas into action.

June

A month of purpose and progress at DigiMantra.

From academic collaborations and industry engagements to sustainability initiatives and wellness activities like International Yoga Day, the focus remained on growth in every sense. We also celebrated excellence through the Most Inspiring Digitians Award, honoring those who inspire through action.

A month driven by learning, impact, and shared success.

July

Milestones, Momentum, and Meaningful Recognition.

July marked the successful Internship Milestone and the completion of our Summer Bootcamp, celebrating hands-on learning and future-ready skills.

Our participation in the Regional Cybersecurity & AI Conference strengthened our industry insights, while our CEO, Mr. Sachin Khosla, being honored with membership in the Global Council of TiE Chandigarh, added another proud achievement to the month. A month of growth, innovation, and leadership.

This August, DigiMantra strengthened its bond with academia through engaging industry sessions and campus visits. Students gained real-world insights into AI, scalability, design thinking, and innovation from experienced professionals.

These interactive sessions encouraged curiosity, collaboration, and practical learning; preparing students to step confidently into the evolving tech industry.

August

Where Learning Meets Industry.

September

Empowering Talent to Inspire Innovation.

This month brought engaging tech sessions, AI discussions, and meaningful industry interactions. Through expert talks and collaborative events, students gained practical insights and real-world exposure; empowering them to grow, innovate, and lead with confidence.

We continued to bridge learning and leadership - full circle, yet forward.

October

The Circle Celebrates Itself.

October was a celebration in full color Reboot, our annual cultural and recognition event, brought together teams from across locations.

From Gala Night to Retro Night, Year of Service and Excellence Awards, High Tea, Pool Party, and Fireside Chats, it was a week that celebrated our culture, connection, and continuity.

Thirteen years may have passed - but the heart of DigiMantra beats younger than ever.

November

Legacy Meets Learning

November was a blend of empathy and excellence. Teams visited an NGO on Children's Day, bringing joy and smiles.

A historic moment followed - the signing of the MoU with IIT Ropar under the DMLearning initiative, a proud milestone reinforcing our vision of academic partnership and innovation.

Men's Day celebrations added lightness and laughter, closing the month with warmth.

December

Endings that Begin Again

The year closed with reflection and cheer.

From the Campus Placement Drive at Chitkara University to the festive Christmas Celebration; featuring the Tree Decor Competition and the Secret Santa exchange; December wrapped 2025 with togetherness.

Major milestones also marked this month.

The DigiMantra Centre of Excellence, established with VentureNest at CGC University.

Mr. Bikramjeet Singh, Global Vice President, represented DigiMantra at JUIT as a panel speaker, adding another feather to our thought leadership journey.

As we closed the year, we didn't just count days; we celebrated progress in every direction.

Reflections from the Circle

Every year leaves behind more than milestones; it leaves memories. In quiet moments and shared wins, Digitians found lessons worth carrying forward.

2025 taught us the value of showing up, for our teams, our ideas, and ourselves. It reminded us that growth is not always loud; sometimes it looks like patience, learning, and trust built over time.

From late-night brainstorming to early-morning stand-ups, from first projects to leadership moments, each journey added a new layer to our collective story. We learned to adapt, to collaborate better, and to move forward; even when the path wasn't clear.

These reflections aren't just about what we achieved; they're about how we grew.

As a professional. As a teammate. As a circle that continues to expand without losing its center.

A year of Milestones

20 25

Celebrating Progress and Achivement

DigiMantra
